# Home Before Winter (HBW) Press Kit

Mobilize your forces, out-think your rivals, and conquer the map to win

## SHORT DESCRIPTION:

Home Before Winter (HBW) is a hybrid 2D turn-based strategy game with a fast-paced WW1 inspired shoot em up mini game. Players deploy units, conquer territory, reposition troops, then jump into frenetic real time gun battles that determine bonuses for the next round. Play solo or with up to 10 players.

## LONG DESCRIPTION:

Home Before Winter combines strategic depth with real time action. Each round is divided into three strategic phases: deployment, attack, repositioning, followed by a chaotic, cinematic shoot em up sequence where players must hold the line with a Gatling gun against waves of enemies. Your success in the mini game directly affects your units, bonuses, and battlefield control.

With support for 1-10 players, HBW lets players strategize alone or coordinate with friends. Its mix of tactical planning, objective-based bonuses, and adrenaline pumping action creates a loop that's easy to learn but rewarding to master.

## KEY FEATURES:

- HYBRID GAMEPLAY  
Turn based strategy mixed with a real time Gatling gun shoot em up.
- MULTIPLAYER (1–10 Players)
